Continuation Sheet (PTOL-303)

Application No.

Continuation of 3. NOTE: The proposed amendment for claim 10 introduces new issue that would require further consideration and/or search by the examiner.

Continuation of 11. does NOT place the application in condition for allowance because: Applicants argue that "complementary" is adequately described or defined in the specification (0049-0051). However, the examiner disagrees. Applicants must recognize that the specification (0051) clearly requires the full recitation of "complementary reactive functional groups are" when reciting some examples of "reactive functional groups". Therefore, the examiner has a reasonable basis to maintain that the recited "complementary" of claims 12-14 does not inherently include the feature of "reactive functional groups". In view of applicants argument filed November 2, 2006, the rejection of Claim 1-19 under 35 U.S.C. 112, first paragraph, is withdrawn. Further, the rejection of Claims 1-11, 15-19 under 35 U.S.C. 112, second paragraph, is withdrawn.
